Strain Requests

Most of our strains (including knockout collections, Noble et al. 2010 and Homann et al. 2009) are available through the Fungal Genetics Stock Center (http://www.fgsc.net/candida/FGSCcandidaresources.htm[1]). If you cannot find a published strain in the FGSC database, please fill out the following form to request desired strains. Additional information on lab derived strains can be found here[2].

Shipment may take several weeks to occur following request.

* Indicates mandatory field.

**Full Name** *

**E-mail** *

**Address Line 1** *

**Address Line 2**

**City** *

**State/Province** *

**Country** *

**Zip/Postal code** *

**Strain requests** *

Please include published strain names for requests.

**Fedex Account number**

Unless otherwise indicated, our lab will send strains via USPS, which could take up to a week. If you would like faster shipping (overnight), please indicate by providing a Fedex Account number.
